

The ciQc and Diagnostic Services Manitoba Joint Symposium on Shaping the Future of Quality Improvements in Pathology

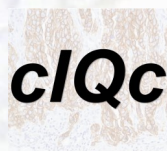

*Introduction and Validation of New Biomarkers to Guide Patient Care
Practical Considerations for Building the Ideal Immunohistochemistry Service*

For pathologists, residents, technologists and scientists

Key topics:

- ◆ *Measuring protein in situ - Where we've been and where we're going*
- ◆ *Using image analysis for accurate and reproducible immunohistochemical interpretation of biomarkers*
- ◆ *Validation of PD-L1, ALK, IDH1/ATRX, BRAF V600E immunohistochemistry*
- ◆ *Immunohistochemistry quality assurance as a complex adaptive system*
- ◆ *iCAPCs and the standardization of negative and positive controls*

Keynote presentations by Drs. David Rimm, Marilyn Bui and Rodney Miller
